

INX +Advanced Cleaning

Advanced cleaning rostering and automation app

MAIN ADVANTAGES

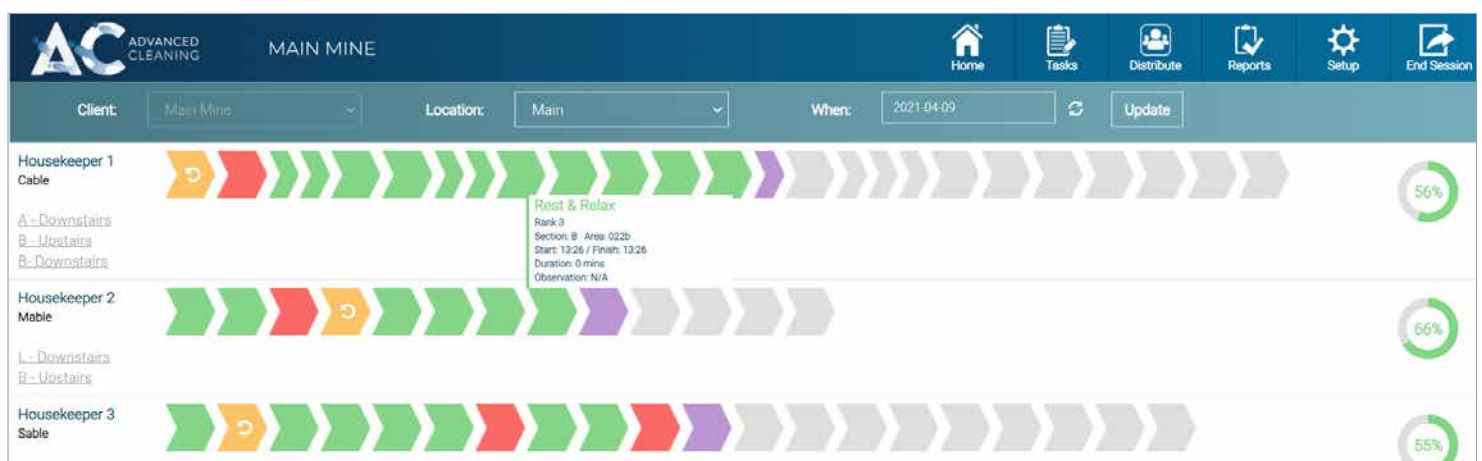

- Seamless integration between INX SAM Suite and INX +Advanced Cleaning
- Real-time monitoring of cleaning progress and visibility of available clean rooms
- Prioritise cleans and schedules based on specific site requirements, see room priorities in one clear workspace
- Real-time updates of cleaning schedule based on booking changes
- Accurate reporting and monitoring of cleaning efficiency
- Comprehensive tracking of cleans, rooms not cleaned are automatically reallocated
- Automate cleaning staff shifts with pre-configured clean durations
- Details of occupant's shift status, departure/arrival times and key returns are shown within cleaning schedule
- Customised mapping of site accommodation provides room and central facilities locations

INX +Advanced Cleaning allows your camp managers to know in real-time cleaned rooms to overcome the administrative challenges of organising large scale cleaning operations. INX +Advanced Cleaning is a comprehensive cleaning services management system that provides simple efficient booking systems to any cleaning operation.

When coupled with INX SAM Suite, +Advanced Cleaning assists companies to evaluate cleaning workloads, workforce capabilities and provide detailed cleaning schedules that are updated and subsequently reported in real-time.

INX +Advanced Cleaning

Advanced cleaning rostering and automation app

Cleaner's tablet screen: showing the cleaner their cleaning types, priorities, map, shift status of occupant.

INX +Advanced Cleaning provides complete visibility of your cleaning operation in real-time! The mobile cleaning coordination tool ensures efficiency and accuracy in bookings, schedules, and progress reports.

- Automate room cleaning priorities based on room status inherited from SAM
- Positive confirmation of room being cleaned and available for check-in, updating in near real-time within the INX SAM Suite
- Manage and automate cleaning runs with ease, adding manual cleans at any time
- Manage priority of back-to-back departure/arrival cleans efficiently
- Easy to use dashboard enables cleans to be reallocated to a different date using a click and drag function
- Designed tablet view with quick options for cleaning staff to filter priority room cleans, track maintenance and mark rooms complete
- Easy identification for cleaners and supervisors of "return to room" and re-clean actions
- User management systems in place to allocate levels of access, security, and ability to maintain process consistency and compliance
- Manage cleans of all central facilities e.g., Laundry, gym, common rooms...

INX +ADVANCED CLEANING FEATURES:

- Auto-synchronisation of all updates from the app once connected/online
- All functionality available offline, with data stored on the device between sync
- At room clean completion, data is synchronised back to INX SAM along with any notes or photos that support the clean. The room now shows 'Completed' in SAM.
- Real-time update of room cleaning planning (Early departs/late departures...)
- Observations and maintenance items, including photos are visible in the INX SAM Suite and send via automated email to the right stakeholders
- Room ranks and priorities inherited from SAM, automated, and displayed accordingly
- Audit trail of all cleaning and administration activities recorded

INX Software is a globally trusted leader of fully integrated environment, health and safety solutions driving the creation of safer, smarter and sustainable workplaces. Our cloud-based software and mobile-capable solutions are standard across high-risk and complex operations including mining, utilities, oil & gas and government sectors, with over 200 enterprise clients and 700,000 users to date. With a global team of industry experts, we enable health, safety and environmental professionals to manage risk, achieve compliance and enhance operational efficiencies across workforce mobilisation and travel logistics, workplace health and safety, environmental and statutory compliance, training and competency management. © 2021
