New Features, Improvements and Fixes

Improvements

1. Workforce Report **SRF277 Completed Workflow** updated to include direction of travel. [[#26326](#)]
2. Workforce Report **SRF163 Arrival Departure 2** has been updated to optionally include the Last Clean Date within the report data. [[#24792](#)]
3. Workforce Report **SRF233 Charter Manifest Upload Template** has been updated to include the RELOC field as an optional output field. [[#26031](#)] [[#26113](#)]
4. Improved the SAM Audit results to include Multiple Reactivate and Deactivate Room detail records.
5. Event Management within SAM has been updated so that you can add bookings to the Event once it has started.
6. Workforce Report **SRF324 Rooms Not Cleaned In Last X Days** updated to include 'Next Clean Date'.
7. Workforce Report **SRF187 Back Charge** updated to include the ability to filter by cost code. [[#25964](#)]
8. Created a new room occupancy status in SAM called 'Future Allocated' to identify those rooms with future bookings against outside the "Only Show Vacant Rooms between date range". [[#24826](#)]
9. Workforce Report **SRF305 EOM Transport Movement and Contractor Hours** has been updated to optionally treat multi-sector transports as a single transport. This assists with more accurate cost reporting. [[#25329](#)]

Fixes

1. Fixed an issue where **SAM | Transport | Manage Booking Sequence** seat swap would not run. [[#26338](#)]
2. Fixed an issue where rescheduling bookings would take the old booking reference rather than creating a new one. [[#26240](#)]
3. Fixed an issue where the date range search for last room occupancy date was incorrectly searching outside of the provided date boundaries. [[#26248](#)]
4. Fixed an issue where Workforce Report **SRF159 Camp Arrivals Departures Date Range** failed to launch when custom */of criteria* was selected. [[#26217](#)]
5. Fixed an issue where a termination clean in Advanced Cleaning was cancelled without approval from a User Account. [[#26222](#)]
6. Fixed an issue where confirmed flights were showing 'awaiting confirmation' in the Kiosk App and 'confirmed' in SAM. [[#26210](#)]
7. Fixed an issue where No Show records were not reporting in SAM Reports or Workforce Report **SRF304 SAM No Shows** if the booking had since been rescheduled or removed. [[#26152](#)] [[#26256](#)] [[#26195](#)] [[#26275](#)]
8. Fixed an issue with reports that may occasionally report failure when being attached to an email.
9. Fixed an issue where the Transport Status on the Folio Itinerary did not match the corresponding details in SAM.
10. Fixed an issue where room locks would only appear in **SAM | Bookings | By Room** - search, if the entire room lock booking fell within the date range. [[#25977](#)]
11. Fixed an issue where booking notifications were returning values for bookings from the week previous instead of one day in advance. [[#25990](#)]
12. Fixed an issue where Workforce Report **SRF233 Charter Manifest Upload Template** was creating an error where the booking would show one leg of a transport in a multi sector transport. [[#26018](#)]

13. Fixed an issue where the BPU would not automatically change incorrect profile information as highlighted by the BPU.
14. Fixed an issue where Workforce Report **SRF172 Mandays** incorrectly included data from SAM profiles instead of the actual report data from individual bookings data. [\[#25800\]](#)
