Highlights of this release

- 1 SAM Event management includes Camp and Room Type selection when creating Crew**
Event Management "Crew Creation" now includes Camps for the Location selection, allowing easier filtering and selection of Room Types.
- 2 Notification on re-assignment of the active approvals when a Workflow Approver is deleted that has old approval records linked**
An improvement has been made to **Workflow**, when deleting an **inactive Workflow approver** with active documents a popup window appears indicating documents need to be assigned to a new approver.

New Features, Improvements and Fixes

New Features

1. Workforce Report **SRF190 Room Status and Ownership** has been improved to now select Future Room Ownership details at Camps.

Improvements

1. Improved reporting results where Report Parameter /ttid will now allow users to select inactive Special Charter [S] transports. To identify these reports please use Workforce Reporting menu Admin | Maintenance | Report Parameters and search /ttid. [[#27172](#)]
2. Workforce Report **SRF110 DMR Summary** has been improved to select both "included" and "excluded" departments. [[#26787](#)]
3. An improvement to SAM | Room Maintenance page to record the maintenance task completion date. Completion date is now available in **SRF334 Room Maintenance** Report. [[#26979](#)]
4. Workforce Report **SRF175 - Roster to Excel** has been enhanced to include an additional available field "ReportData.CostCode". [[#27117](#)]
5. Workflow document history has been improved to not report profile processing errors. [[#26922](#)]
6. Workflow has been improved to include a parameter "**TransportNoShowRequestorEdit**" which gives the system admin the ability to turn the "Transport No Show checkboxes" to read only for workflow requestors. [[#26918](#)]
7. Workflow parameter **MaximumFuturePeriod** has been improved to allow configuration value setting to weeks. [[#27040](#)]

8. A new SAM parameter **ConfirmedBookingDetailMessage_Workflow** has been developed. This will display the Workflow message to be **CAMP only** when a booking is made and SAM will continue to display Camp, RoomType and Room Number within menus such as Multiple Bookings. [[#26917 & 26776](#)]

Fixes

1. **Workflow** resolved an issue where the EYE icon was not displaying on Task Panel document when another approver had document open. [[#27218](#)]
2. Fixed an issue where Workforce Report **SRF175 - Roster to Excel** can include multiple rosters in the **/rostitd** field. [[#27136](#)]
3. Fixed an issue where Workforce Report **SRF240 Village Occupancy** that was not returning all occupancy data. [[#27116](#)]
4. Fixed an issue where SAM **Event Management** Status Report is enhanced to indicate live booking data. [[#27130](#)]
5. Fixed an issue in **SAM Room lock** where an additional row is created in the result grid when adding rooms to an existing room lock. [[#27100](#)]
