Release Notes

Update V6.3.13

13 August 2021

1 Highlights and New Features

Summary

We are pleased to confirm there is an upgrade to the INX SAM Suite V 6.3.13. Within this version the following features and fixes have been applied.

Highlights

1

SRF241 Profile Change Audit report to include additional details

Workforce Report SRF241 Profile Change Audit Report original template details is enhanced to include the Source of the profile change (i.e., SAM or Workflow) and an update to the date column which now displays Seconds in the time stamp.

New Features

1. Workforce Report **SRF320 Workflow Approval Time KPI** has been enhanced to add additional filters in the application and columns in the report, i.e., 'email addresses' field and 'approver type' by field.

2 Improvements

1. Improved the behaviour of SAM & WF Reschedule Warning messages where a **Stop** will be present if the change to a future booking affects current onsite bookings and a **Warning** if a reschedule overlaps future onsite bookings. [\[#14470\]](#)
2. Workflow has been improved to include a parameter **TransportNoShowOffset** which gives the system admin the ability to only show the "Transport No Show checkboxes" where the transport date is for today or earlier, minus any offset entered.
3. Workforce Report **SRF242 Accommodation Arrivals** report has been improved to generate a report regardless of Arrival bookings on the day and the template is enhanced to include additional details to match SAM Accommodation report. [\[#27288\]](#)
4. An improvement has been made to SAM where the profile extension field for multi-line has been increased to 1000 characters for a SAM Profile. [\[#27143\]](#)
5. An improvement has been made to Workforce Report **SRF276 Locker Allocations** to display the locker allocated recently in the report and enhanced to include the unallocated lockers between a date range. [\[#27211\]](#)
6. An improvement has been made to Workforce Report **SRF163 Arrivals Departures** to display the Previous Shift Status from Report Date -1 day and updated Tabs and Headers of the report within both [ADR] & [DMR] templates. [\[#27170\]](#)
7. An improvement has been made to SAM to include **External and Multi Sector** transports links within the Dashboard Transport Quick Links. [\[#27030\]](#)
8. An improvement has been made to SAM Event Management error message when selecting a room for an event if the room is no longer available. [\[#27046\]](#)
9. Workflow Folio has been improved to enable a user to create a change shift request for a person who has no future bookings.
10. An improvement has been made to Workflow Folio email notifications to include a new column for the **Next Travel** information for those who have bookings cancelled or for any other request. [\[#27016\]](#)
11. Links to the SAM profile from the multi-function pages such as accommodation arrivals will now open the full SAM profile in a new tab.
12. A new parameter CleanMasterRoomVacateType is introduced to generate a vacate clean when a person departs from a master room to virtual room regardless of a new arrival. [\[#27242\]](#)

3 Fixes

1. Fixed an issue in AFT Workflow integration where repeated confirmation popup was blocking the document from processing. [\[#14116\]](#)
2. Fixed an issue in Workflow where the reason for travel does not update when cloning a workflow document. [\[#14490\]](#)
3. Fixed an issue in Workflow where the users were getting error when they used their work email address. [\[#14251\]](#)
4. Fixed an issue in Workflow where the search by Request# was conflicting with AssignedTo and ApprovalType criteria. [\[#14176\]](#)
5. Fixed an issue in SAM where the cleaning roster and the profile completion process was creating a duplicate Termination Clean. [\[#26006\]](#) [\[#26951\]](#)
6. Fixed an issue in SAM where the sorting of a completed resource grid caused an exception, and the Camp/Room column could be incorrectly empty.
7. Fixed an issue in Workforce Report SRF306 Nightly Audit Run where the night audit report was returning a mismatch error. [\[#27222\]](#)
8. Fixed an issue in Workflow where a Roster preview for a new profile was throwing an Exception error. [\[#27229\]](#)
9. Fixed an issue in SAM and Workflow where a profile could have a completion date prior to commencement date. [\[#27229\]](#)
10. Fixed an issue in Workflow where My Travel, My Requests and My Tasks buttons on the Task panel search have been improved to default the search date range. [\[#27221\]](#)
11. Fixed an issue in SAM where a profile was not updating for a booking range with change to Booking Attributes. [\[#27232\]](#)
12. Fixed an issue in Workforce Report SRF306 Nightly Audit Run where incorrect Roster Extension Error Code was displayed in SRF306. [\[#27222\]](#)
13. Fixed an issue in SAM where the system was displaying an error message incorrectly when a resource is moved to another room. [\[#23295\]](#)
