3 Fixes

1. Fixed an issue in Workflow site travel when adding and rescheduling a booking was throwing exception error.
2. Fixed the SAM | Report | Check availability report to display the date in the correct format.
3. Fixed an issue in SAM Cleaning where duplicate clean was created for today and tomorrow.
4. Fixed an issue when rescheduling an on-site travel to overlap future booking, reschedule is processed without confirming on the affected bookings.
5. Fixed an issue where a folio shortening of booking resulted in incorrect CC/Dep/Emp/PosId's.
6. Fixed an issue in **Workforce Reporting SRF231** where the report was showing incorrect booking when filter by transport code prefix. [\[#14897\]](#)
7. Fixed an issue in **Workforce Report SRF173** to remove the display of inactive single sector flights from reports. [\[#14795\]](#)
8. Fixed an issue when rescheduling a confirmed transport (carrier booking) to the same transport and date but with different booking attribute.
9. Fixed an issue in Workforce Reporting where the SRF reports return the message 'There is no data to report for this criteria', when camps are included with and without arrival and departure.
