Release Notes

Update V6.3.15

13 October 2021

# 1 Highlights and New Features

---

## Summary

We are pleased to confirm there is an upgrade to the INX SAM Suite V 6.3.15. Within this version the following features and fixes have been applied.

## Highlights

### **SAM Quick links**

SAM Quick Link shortcut: Allow user to quickly search and navigate across SAM pages  
Ctrl+Shift+F is the SAM quick find short-cut to search for pages, profiles or parameters.

### **WF documents to include Private Notes for Final Approvers only**

When adding Private notes to a Workflow request they are only available for approvers of WorkFlow documents which are not visible to Requesters, Mid Level approvers or included within email confirmations regardless if the document is active, completed or cancelled.

## New Features

1. Introducing an availability graph on the Check Availability page, making it easier to identify camp availability at a glance. Each day is broken down into different room types with over allocation highlighted in red.  
  
Please contact INX Support for additional information
2. SAM Group Master page has been enhanced with a new “Add” button for adding new group details at the top and bottom of the grid and has the now has the ability to select multiple group details and delete them

## Improvements

---

- 1 Workforce Report SRF246 Run Resource Mobilisation and Demobilisation Report has been improved to include the Demob type in the Demob tab.
- 2 Gender field in SAM has been updated to default to “Please Select” rather than Male  
SAM |Transport | No show page has been enhanced with a new “Send SMS” option so that SMS can be sent to passengers from the No show page.
- 3 **SRF194 Transport Manifest by Location** has been improved to include luggage weight in the(/of) additional profile fields.
- 4 **SRF255 Automated Booking Status Report** have been enhanced to include the Tenement number where applicable. [#15791]

- 9 Updated Workforce Reports that require a Title to return the Title Name when sending to an Email account. [#27099]

## Fixes

---

1. Fixed an issue in SAM when an error popped while updating flight description that has carrier booking interface. [#16425]
2. Fixed an issue in SAM when an error was being received for profiles that have custom profile fields. [#16454]
3. Fixed an issue where **SRF194 Transport Manifest by Location** was not returning correct multisector information. [#16029]
4. Fixed an issue in SAM where the SAM dashboard was showing inactive transport. [#16296]
5. Fixed an issue where an error was occurring in profile fields when more characters were added to the profile field and no validation message was appearing.
6. Fixed an issue when a new booking was raised and no transport was selected and requestor attempted to send to another approval group.
7. Fixed an issue with the Transport Schedule page, when increasing seat numbers on a transport that has waitlisted passengers, the passengers are now promoted from having a waitlisted to a confirmed booking.
8. Fixed an issue in SAM Event Management when a user selected camp in event crew page the loader keeps spinning. [#15264]
9. Fixed an issue where final approvers were able to decline a document in 2 workflow tabs. [#13935]
10. Fixed an issue when reactivating a profile, the phone number validation is invoked and a warning message is displayed if the phone number is in use by another profile. [#13992]
11. Fixed an issue in SAM Event Management when users were unable to add a new crew to an ongoing event for today. [#15337]
