

Digitise the complete field assessment process

Protect your people and ensure compliance.

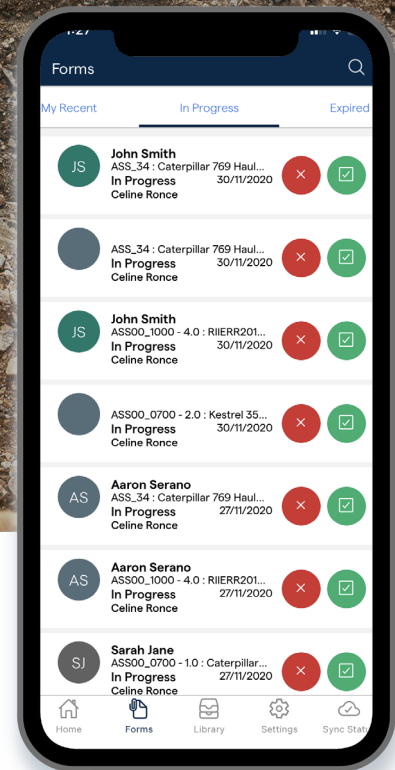

INX Assessor provides cloud management of digital practical assessments with embedded photographic evidence.

Performed on mobile devices to enforce verification of competency levels of your workforce, our intelligent software gives you peace of mind by improving safety and compliance.

Design your own assessments and reduce the time spent on administrative tasks with INX Assessor.

Designed to solve real client problems, INX Assessor manages risk and compliance and improves operations efficiency.
